

## About Us

---

Established in 1990 Glenelg Design Ltd has developed successful working partnerships with a range of both local and international clients, including GHD, MeadWestvaco, ICI, Nintendo and Raytec CCTV. Our extensive design and CAD studio space is complemented by a well equipped workshop facility, allowing us to easily produce rig models to test theories, or presentation / functional models to test product aesthetics and manufacture.

We work with clients ranging from individual inventors to multinational companies. It has always been our strongest claim to be able to produce innovative design solutions integral with our clients strategic business objectives. With our name on over 15 patents we believe this confirms our innovative approach to design.

Our involvement in projects through a very broad spectrum of disciplines has gained us invaluable experience in production, utilising the majority of manufacturing processes. We have and continue to work closely with other like minded dedicated teams in Electronics design, Engineering, Product testing, Prototyping and Production, to obtain the best and most timely response to Product Development requirements on behalf of our clients.
