

The Team

Glenelg Design comprises a core team of 5 multi-skilled designers with forged links to a number of likeminded specialists in fields of development, prototyping and production.

With links to tool makers, graphic & print producers, electronics specialists, exhibition designers and rapid prototypers, Glenelg is able to provide timely solutions to any project requirement.

In this way we are able to work efficiently and keep costs down whilst being flexible with regard to the services we provide.
